

What Is The MMS Gateway For My Cell Carrier?

Last Modified on 03/16/2026 8:41 am PDT

This article will provide you with a list of different **Mobile Carriers** and their **MMS Gateways**.

NOTE: If you are unable to send message to a specific carrier then it is likely that the carrier no longer supports email-to-text via MMS Gateways. We update the specific carriers that no longer support this service as we get confirmation that it is no longer supported.

Please email support@MyoVision.com with carriers that no longer function. We do our best to keep the list update but as many of these are international we are unable to confirm

List of Text Message Gateways

Carrier	Country	Gateway
AirCel	India	@aircel.co.in
