How Do I Make the MyoVision Software Text Bigger or Smaller?

Last Modified on 05/28/2019 3:30 pm PDT

The purpose of this article is to demonstrate how to customize the font size inside the exams to make it easier to read.

1. Click on "Setup" in the top menu, go down to "Reports" and select "Font"

2. A window will open allowing you to make the following customizations: change the font, size, style, and color. Click OK and start a test exam to make sure you like the changes, and that the font doesn't cut off. For best results, the recommended font size is 9.

Font		x
